    ITEM 9

Anglo Philippine Holdings Corporation
APO

PSE Disclosure Form 4-30 - Material Information/Transactions
References: SRC Rule 17 (SEC Form 17-C) and
Sections 4.1 and 4.4 of the Revised Disclosure Rules

Subject of the Disclosure
Acquisition of Shares of Atlas Consolidated Mining and Development Corporation
Background/Description of the Disclosure
With the approval of the Board of Directors, Anglo Philippine Holdings Corporation ("APO" or the "Corporation") executed today an agreement to assign all of its rights, interests and obligations, including payment of remaining subscription payables, over its subscription to 727,200,292 subscribed and partially paid common shares representing approximately 20.43% of Atlas Consolidated Mining and Development Corporation ("AT") in favor of Dominion Holdings, Inc. As previously disclosed, APO paid up twenty-five percent (25%) of the subscription price of the said shares. The remaining seventy-five percent (75%) remains payable to AT upon call of the Board of Atlas. The proceeds will be used to retire a portion of the Corporation's liabilities. Aside from this debt retirement, the proposed assignment of the Corporation's subscription rights in AT is expected to significantly strengthen APO's financial position by substantially reducing its subscription liabilities. As a result, the transaction is expected to significantly improve its current ratio, debt-to-equity ratio, and return on assets, both at the parent company and consolidated levels. At the parent company level, the transaction is likewise expected to increase retained earnings before tax through the recognition of the resulting gain on the assignment. At the consolidated level, retained earnings are expected to decrease due to the reversal of the Group's previously recognized equity share in the net income and other comprehensive income of Atlas in prior years. Notwithstanding such reversal, consolidated retained earnings will likely remain positive after giving effect to the transaction. The foregoing financial effects are based on the current terms of the transaction and remain subject to the final accounting treatment under applicable Philippine Financial Reporting Standards.
